# Bringing *craftsmanship* to plant-based meats.

We have reimagined plant-based meats to embody craftsmanship and quality. Every ingredient we source has been hand-selected for taste and purpose. The zest of chilies. The brininess of sea salt. The deep, umami flavor of porcini mushrooms. Bright, bold flavors that are complemented by a tender, meaty bite.

With our plant-based meats, you can be sure that you're only indulging in exceptional ingredients, never a trace of additives, natural flavors, soy or canola. This is simply delicious food that you can feel good about (and after) eating.
