DAY BOAT OCTOPUS WHOLE & TENTACLES

BY M M MEDITERRANEAN

DAY BOAT SUSTAINABLE OCTOPUS

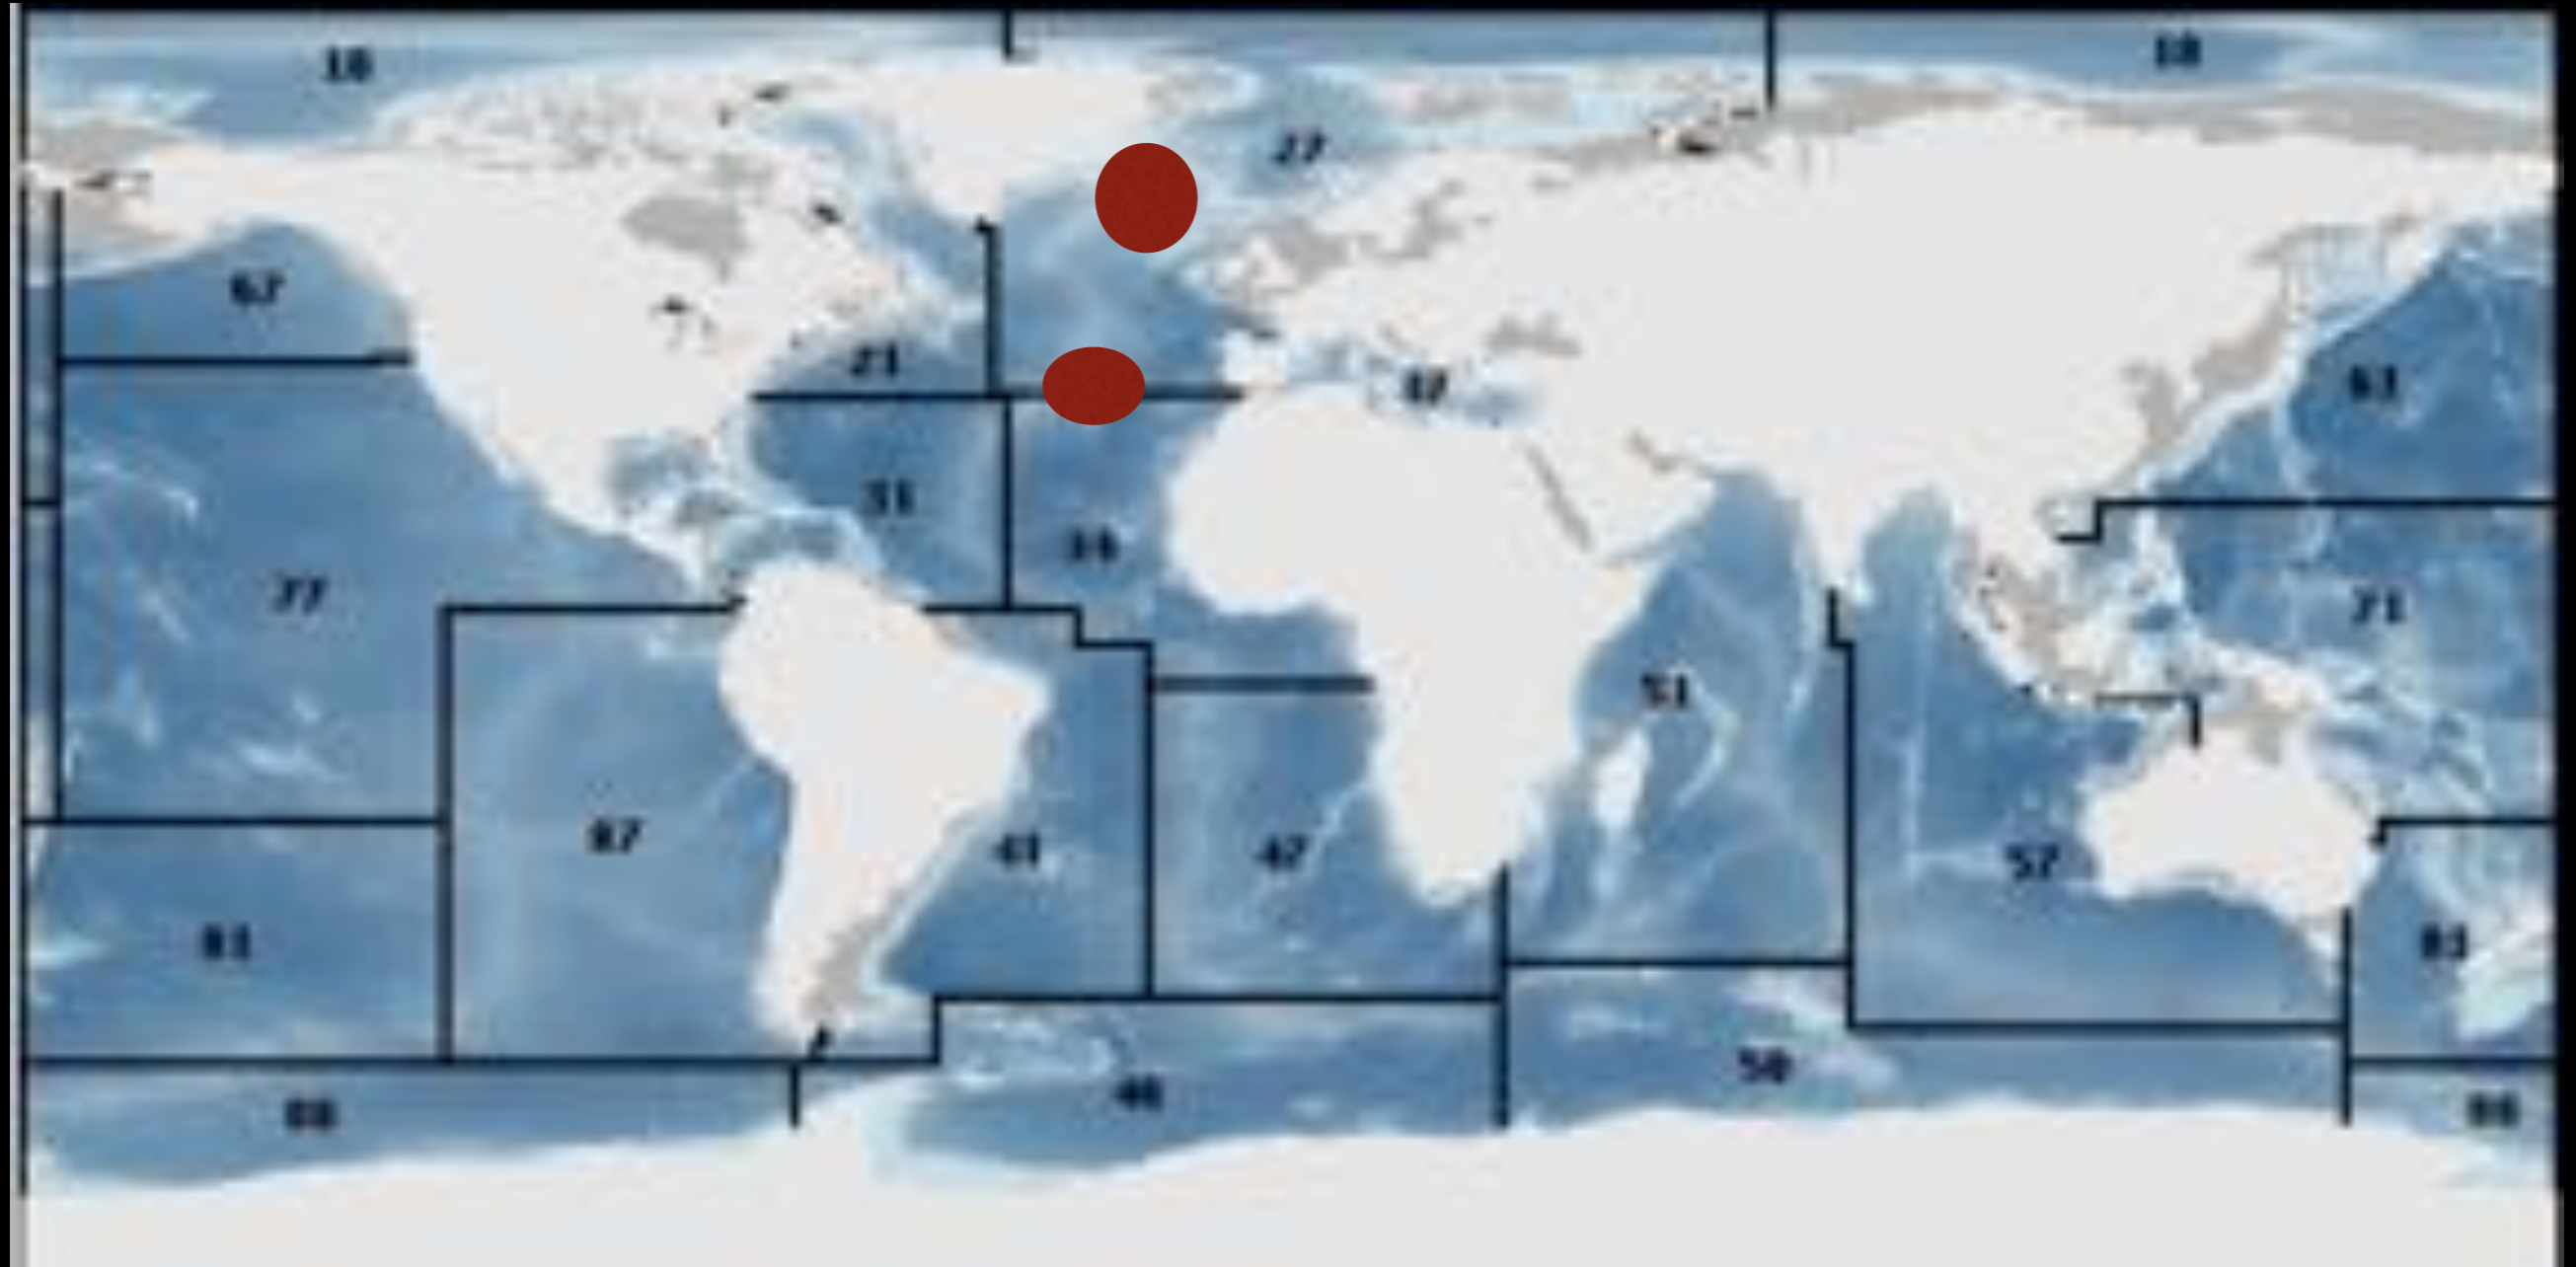

Pulpo de playa octopus is caught by local “day boats” off the coast of Spain. It is caught by the traditional and sustainable method called “pot fishing”. Our octopus thrives close to the shore on a rich diet of shrimp, clams and fish, that infuses the pulpo de Playa with a delicate and fresh flavor.

Spanish octopus is ranked as a “good alternative “ by seafood watch Monterey Bay Aquarium.

FISHING AREAS

FAO 27, 34

SPECIAL FEATURES

- These octopus are fished on day boats. Close to the shore.
- After being caught they reach the harbor alive.
- Immediately after, they are sent to our plant to be selected, processed and IQF (individually Quick Frozen) and shipped directly to our facilities in the United States.
- We select the best fishing grounds in both the Spanish and Portuguese coast depending on the time of the year, so we can always bring the highest quality product to our customers.
- Our inventory ranges from sizes 3/5, 5/7, 7/9, 9 + and 12+lbs.
