

PRODUCTS SHOWCASE

GAS FREE YELLOWFIN TUNA SAKU

BY MEDITERRANEAN

A High quality 100 % gas-free Yellowfin tuna Saku. Skinless, boneless bloodline off. Vacuum packed. Catch from longliner vessels and purse seine. From reliable well managed dolphin safe fisheries

Our Yellowfin Tuna Saku tuna has an exceptional Red Color without using Co2 treatment as coloring.

Our Tuna is treated with natural preservatives and antioxidants, to retain and promote red color. We use the same natural antioxidants used for milk, cheese, yogurts, baby food, etc., that comes from citric acid, a natural ingredient, found in all living organisms, and large

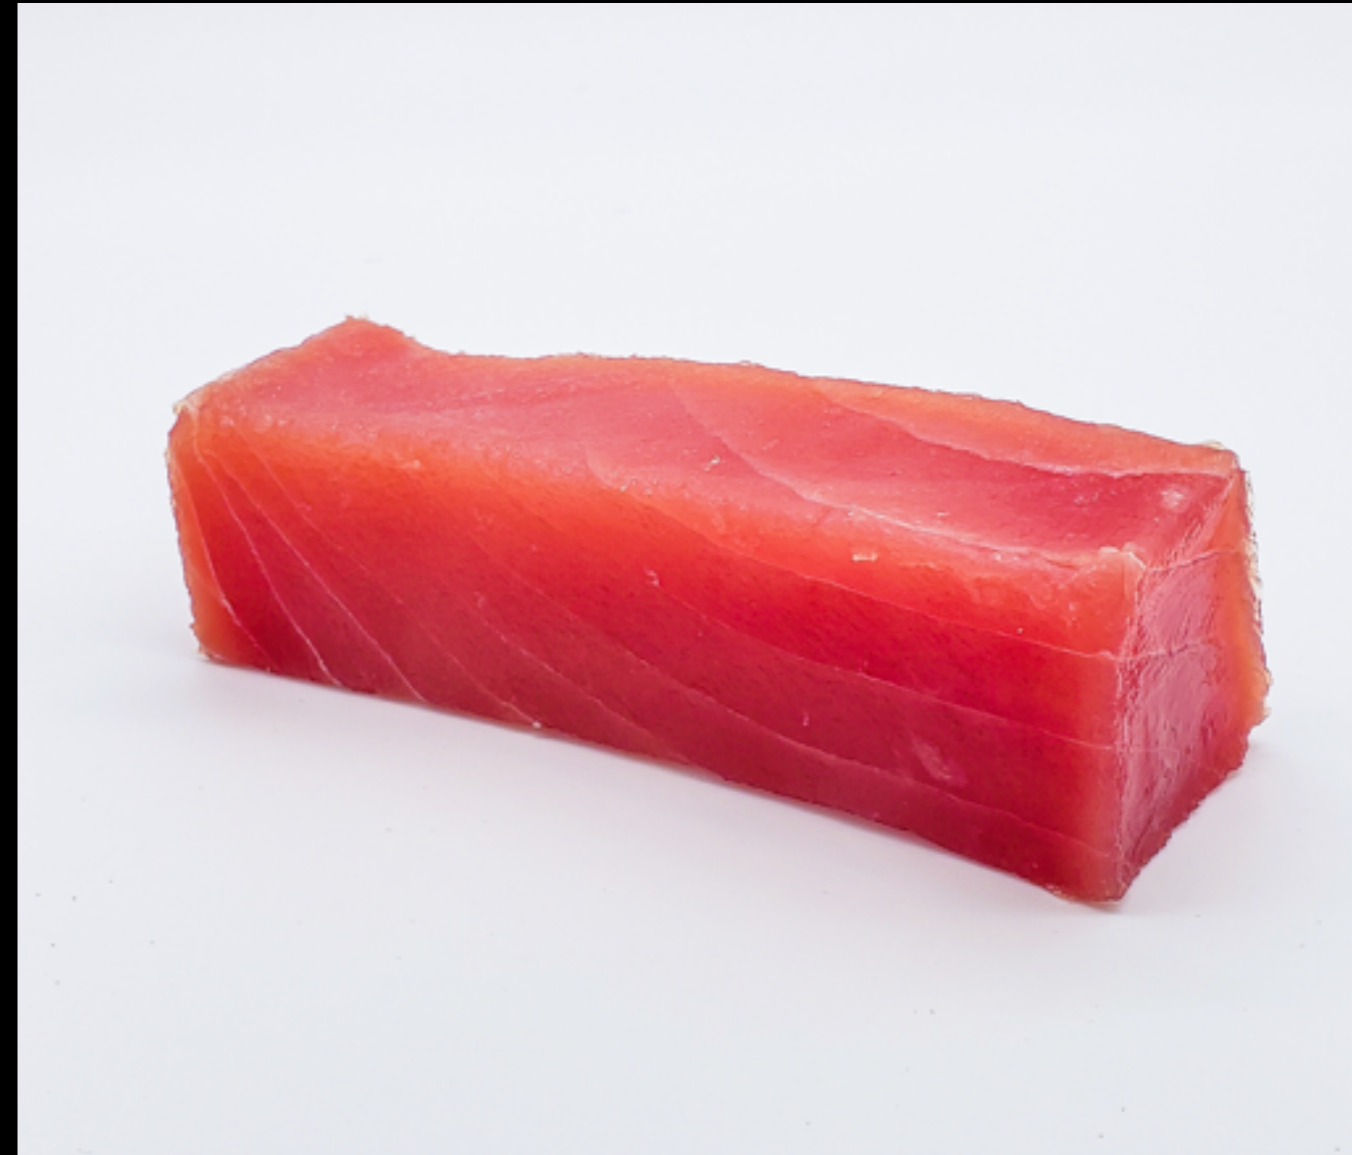

concentrations in citrus fruits, strawberries or kiwis, among others.
