

## Oven Roasted Turkey Breast

I am happy to announce that I have improved my Natural Oven Roasted Turkey. We have been out there promoting the hell out of the product for about 7 years now, and yet we always listened to the little complaints. Why do you use sodium carbonate? It dries up pretty easily. SO, here it is, my new list of ingredients: Turkey, Water, Sea salt. Who said you couldn't improve a good thing.

**Ingredients:** Turkey Breast, Water, Sea Salt.

## Dry Cured Bacon

This is the bacon that put us on the restaurant map. Our top item.

Pork bellies sit in salts and sugars for 10 days. Then they hang for 1 day before being smoked using real applewood chips that are burned to create awesome bacon. This is the perfect bacon that showcases pork, smoke, sugar, and salt in harmony. Many of our customers call this bacon dry aged.

**Ingredients:** Pork, Salt, Cane, Maple, and Brown Sugars, Dextrose, Sodium Nitrite

## Uncured Pepperoni

This is our original recipe for pepperoni offered in two diameters. Chefs have used this pepperoni because it is mildly seasoned and allows a real pork finish to shine. The quantity of paprika and heat is very subtle. An important production note is that the water movement, or the level of dryness of this product is so perfect that we are comfortable marketing this product as shelf stable.

**Ingredients:** Pork, Beef, Sea Salt, Natural Flavor, Paprika, Spices, Cane Sugar, Garlic, Smoke Flavoring, Lactic Acid Starter Culture.

## Prosciutto

**Product of Italy • Preservative Free**

**Made With Pork Raised Without Antibiotics 100%**

**Vegetarian Fed • Gluten Free • Lactose Free**

For years now, we have been sourcing our prosciutto legs here in the United States but we have been challenged by being unable to source large enough legs over and over again. This has resulted in our prosciutto being a bit saltier than we would prefer. So, we turned to the homeland of the prosciutto, Italy and found a source for antibiotic free, hormone free pork that was willing to raise the pigs till we got prosciutto legs that were large enough for our recipe.

We can't wait for you to taste the difference. Our whole prosciuttos are now about 25% larger, therefore it takes longer for them to dry but the same recipe of pork, salt and love makes for an even more amazing eating experience since the salt profile is so much milder.

**Ingredients:** Pork, Sea Salt.

### FROM THE FOUNDER

Zoe's Meats was founded as an artisan meat company in 2007 by two guys in the meat business who met playing beach volleyball. The idea behind Zoe's Meats was to give chefs access to cured and smoked meats that were so good they didn't have to make them from scratch in-house. Next thing you know, bacon, deli meats and salamis were being delivered in Zoe's Meats refrigerated vans and getting branded on menus. The Zoe's Meats motto has always been one customer at a time, one box at a time – and that hasn't changed. Through acquisition (Daphne's Creamery) and incubation of micro brands (Two Chicks Jerky and Arvanitis USA) Zoe's Meats celebrates its 16th year.

Cheers,  
*The Zoe's Meats Team*
